

Local Media. Real Growth.

YOUR BRAND. OUR PLATFORMS.
REAL IMPACT.

LMB Online Marketing is a full-service digital marketing and media group connecting brands with communities across South Africa through powerful advertising, content creation, website development, social media management and strategic marketing solutions.

We don't just market businesses, we build visibility ecosystems through our network of lifestyle and city-based platforms including **Love My Bay**, **Love My Cape Town City**, **Love My Jozi**, **Love My South Africa**, **What's On in PE** and **What's On in JBay**.

Who We Are

We are a specialised team across design, development, content, advertising and social media strategy.

We work with our clients as an extension of their team to create measurable growth and real business results.

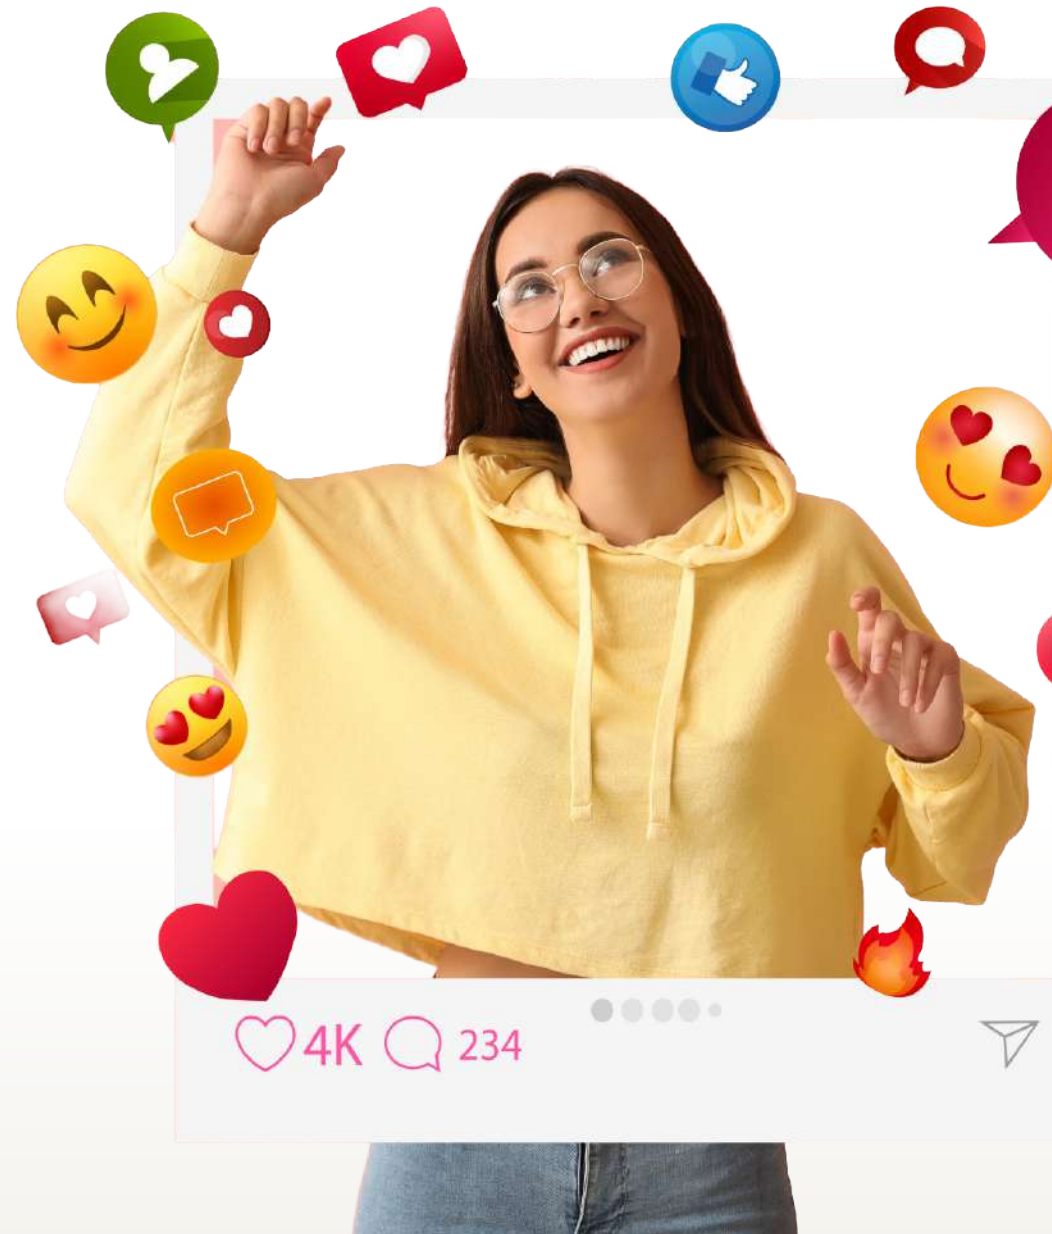

What Makes Us Different

LMB Online is more than a marketing agency, we are a media ecosystem. Through our network of established lifestyle, city and community platforms, we offer businesses something no traditional agency can, direct access to highly engaged local audiences while simultaneously delivering full-service marketing solutions.

As far as we know, we are the only agency in South Africa that combines digital marketing, media ownership, content creation, website development and cross-platform community publishing under one umbrella.

Collectively, our platforms reach over 500,000 organic views and 60,000+ unique accounts each month, giving our clients immediate visibility across multiple trusted channels.

Instead of simply creating marketing campaigns, we amplify brands through an interconnected ecosystem designed to increase awareness, engagement and real business growth.
